

Advantech Co., Ltd. and Subsidiaries

**Consolidated Financial Statements for the
Three Months Ended March 31, 2009 and 2008 and
Independent Accountants' Review Report**

INDEPENDENT ACCOUNTANTS' REVIEW REPORT

The Board of Directors and the Shareholders
Advantech Co., Ltd.

We have reviewed the accompanying consolidated balance sheets of Advantech Co., Ltd. and subsidiaries as of March 31, 2009 and 2008, and the related consolidated statements of income and cash flows for the three months then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our reviews.

Except as stated in the following paragraph, we conducted our reviews in accordance with Statement of Auditing Standards No. 36 - "Review of Financial Statements" of the Republic of China. A review consists principally of applying analytical procedures to financial data and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

As stated in Note 2 to the consolidated financial statements, the financial statements of the Company's subsidiaries as of and for the three months ended March 31, 2009 and 2008 had not been reviewed. The total assets of these subsidiaries were 48.05% (NT\$7,315,024 thousand) and 43.36% (NT\$7,551,957 thousand) of the Company's consolidated total assets as of March 31, 2009 and 2008, respectively. The total liabilities of these subsidiaries were 50.94% (NT\$1,611,266 thousand) and 57.18% (NT\$2,190,814 thousand) of the Company's consolidated total liabilities as of March 31, 2009 and 2008, respectively. The operating revenues of these subsidiaries were 79.96% (NT\$2,842,714 thousand) and 73.01% (NT\$3,029,391 thousand) of the Company's consolidated operating revenues in the three months ended March 31, 2009 and 2008, respectively. The net income of these subsidiaries were 15.20% (NT\$57,366 thousand) and 32.29% (NT\$203,387 thousand) of the Company's consolidated net income in the three months ended March 31, 2009 and 2008, respectively. Also, as stated in Note 9 to the financial statements, Advantech Co., Ltd. had investments accounted for by the equity method. The carrying value of these investments of NT\$398,243 thousand and NT\$549,537 thousand as of March 31, 2009 and 2008, respectively, and the Company's equity in these investees' net income amounting to NT\$15,477 thousand and NT\$18,300 thousand in the three months ended March 31, 2009 and 2008, respectively, were based on these investees' unreviewed financial statements for the same reporting periods as those of the Company.

Based on our reviews, except for the adjustments that might have been determined to be necessary had the subsidiaries and other equity-method investees' financial statements mentioned in the preceding paragraph been reviewed, we are not aware of any material modifications that should be made to the consolidated financial statements of Advantech Co., Ltd. and subsidiaries referred to in the first paragraph for them to be in conformity with the Guidelines Governing the Preparation of Financial Reports by Securities Issuers; order VI-0960064020 issued by Financial Supervisory Commission under the Executive Yuan on November 15, 2007; and accounting principles generally accepted in the Republic of China.

As disclosed in Note 3 to the accompanying financial statements, the Company and subsidiaries adopted the newly revised Statement of Financial Accounting Standards No. 10 - "Inventories" on January 1, 2009. In addition, the Accounting Research and Development Foundation issued Interpretation 2007-052, which requires companies to recognize bonuses paid to employees, directors and supervisors as compensation expenses beginning January 1, 2008. These bonuses were previously recorded as appropriations from earnings.

April 20, 2009

Notice to Readers

The accompanying consolidated financial statements are intended only to present the financial position, results of operations and cash flows in accordance with accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdictions. The standards, procedures and practices to review such consolidated financial statements are those generally accepted and applied in the Republic of China.

For the convenience of readers, the accountants' report and the accompanying consolidated financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. If there is any conflict between the English version and the original Chinese version or any difference in the interpretation of the two versions, the Chinese-language accountants' report and consolidated financial statements shall prevail.

ADVANTECH CO., LTD. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS THREE MONTHS ENDED MARCH 31, 2009 AND 2008 (In Thousands of New Taiwan Dollars, Unless Stated Otherwise) (Reviewed, Not Audited)

1. ORGANIZATION AND OPERATIONS

Advantech Co., Ltd. (the "Parent Company") was established in September 1981 and it is a listed company. It manufactures and sells embedded computing boards, industrial automation products, applied computers and industrial computers.

As of March 31, 2009 and 2008, the Parent Company and the consolidated subsidiaries (collectively, the "Group") had 4,023 and 4,186 employees, respectively.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Group's financial statements have been prepared in conformity with the Guidelines Governing the Preparation of Financial Reports by Securities Issuers; order VI-09600640020 issued on November 15, 2007 by the Financial Supervisory Commission under the Executive Yuan and accounting principles generally accepted in the Republic of China. Under these guidelines, laws and principles, the Group is required to make certain estimates and assumptions that could affect the allowance for doubtful accounts, provision for loss on inventories, depreciation of properties and properties leased to others, pension cost, product warranty reserve, bonuses to employees and remuneration to directors and supervisors and income tax. Actual results could differ from these estimates.

For the convenience of readers, the accompanying consolidated financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. If there is any conflict between the English version and the original Chinese version or any difference in the interpretation of the two versions, the Chinese-language financial statements shall prevail.

The Group's significant accounting policies are summarized as follows.

Basis for Consolidation

Consolidated financial statements should include direct and indirect subsidiaries in which the Parent Company has controlling interests or has voting rights of over 50%. The consolidated entities included the Parent Company and its all subsidiaries. All significant intercompany accounts and transactions have been eliminated from the consolidated financial statements.

For the three months ended March 31, 2008, the Parent Company does not have equity interest of over 50% in BCM Embedded Computer Inc. (BCM), but it represents voting rights of over 50% in BCM's board of directors. Thus, with the Parent Company's substantive control over BCM, BCM was included in the consolidated group.

For the three months ended March 31, 2009 and 2008, Advansus Corp. and Hangzhou Advantofine Automation Tech. Co., Ltd. were consolidated using the proportionate consolidated method. All significant accounts and transactions between the Parent and this company have been eliminated from the consolidated financial statements.

The organization charts of intercompany relationships and percentages of ownership as of March 31, 2009 and 2008 is shown in Table 9 (attached). The names, locations and other information of investees are shown in Table 7 (attached).

The financial statements used as basis of the consolidated subsidiaries' information and related investment amounts were unreviewed.

Current and Noncurrent Assets and Liabilities

Current assets include cash, those assets held primarily for trading purposes and to be realized, sold or consumed within one year from the balance sheet date. All other assets such as property, plant and equipment are classified as noncurrent. Current liabilities are obligations incurred for trading purposes or to be settled within one year from the balance sheet date. All other liabilities are classified as noncurrent.

Financial Assets/Liabilities at Fair Value through Profit or Loss

Financial instruments classified as financial assets or financial liabilities at fair value through profit or loss ("FVTPL") include financial assets or financial liabilities held for trading and those designated as at FVTPL on initial recognition. The Parent Company recognizes a financial asset or a financial liability on its balance sheet when the Parent Company becomes a party to the contractual provisions of the financial instrument. A financial asset is derecognized when the Parent Company has lost control of its contractual rights over the financial asset. A financial liability is derecognized when the obligation specified in the relevant contract is discharged, cancelled or expired.

Financial instruments at FVTPL are initially measured at fair value. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognized immediately in profit or loss. At each balance sheet date subsequent to issue of initial recognition, financial assets or financial liabilities at FVTPL are remeasured at fair value, with changes in fair value recognized directly in profit or loss in the period in which they arise. On derecognition of a financial asset or a financial liability, the difference between its carrying amount and the sum of the consideration received and receivable or consideration paid and payable is recognized in profit or loss. All regular way purchases or sales of financial assets are recognized and derecognized on a trade date basis.

A derivative that does not meet the criteria for hedge accounting is classified as a financial asset or a financial liability held for trading. If the fair value of the derivative is positive, the derivative is recognized as a financial asset; otherwise, the derivative is recognized as a financial liability.

Fair values of financial assets and financial liabilities at the balance sheet date are determined as follows: Financial assets and financial liabilities without quoted prices in an active market - at values determined using valuation techniques.

Available-for-sale Financial Assets

Available-for-sale financial assets are initially recognized at fair value plus transaction costs that are directly attributable to the acquisition. When subsequently measured at fair value, the changes in fair value are excluded from earnings and reported as a separate component of shareholders' equity. The accumulated gains or losses are recognized as earnings when the financial asset is derecognized from the balance sheet. Purchase or sale of financial assets under customary transactions is recognized and derecognized using trading date accounting.

Cash dividends are recognized as investment income upon ex-dividend day but are accounted for as reductions of the original cost of investment if these dividends are declared on the investees' earnings before investment acquisition. Stock dividends are recorded as an increase in the number of shares held and do not affect investment income. After the receipt of stock dividends, the cost per share is recalculated on the basis of the new number of total shares.

Fair values of financial assets and financial liabilities at the balance sheet date are determined as follows: Publicly traded stocks - at closing prices; open-end mutual funds - at net asset values.

An impairment loss is recognized when there is objective evidence that the financial asset is impaired. Any subsequent decrease in impairment loss for an equity instrument classified as available-for-sale is recognized directly in equity. If the fair value of a debt instrument classified as available-for-sale subsequently increases as a result of an event which occurred after the impairment loss was recognized, the decrease in impairment loss is reversed to profit.

Revenue Recognition, Accounts Receivable, and Allowance for Doubtful Accounts

Sales are recognized when titles to products and material risks of ownerships are transferred to clients, primarily upon shipment, when the earnings process is mostly completed and profit is realized or is realizable. The Group does not recognize as sales those transactions involving the delivery of materials to subcontractors since ownership of materials is not transferred upon delivery of materials. Allowances and the related provision for sales returns are accounted for as a deduction from gross sales, and the related costs are deducted from cost of sales as they are incurred.

Sales are measured at the fair value of the consideration received or receivable and represents amounts agreed between the Group and the customers for goods sold in the normal course of business, net of sales discounts and volume rebates. For trade receivables due within one year from the balance sheet date, as the nominal value of the consideration to be received approximates its fair value and transactions are frequent, fair value of the consideration is not determined by discounting all future receipts using an imputed rate of interest.

An allowance for doubtful accounts is provided on the basis of a review of the collectibility of accounts receivable. This review involves the aging analysis of the outstanding receivables and assessing relevant economic circumstances.

Inventories

Inventories consist of raw materials and supplies, work-in-process, finished goods. Before January 1, 2009, inventories were stated at the lower of cost or market value. Any write-down was made on a total-inventory basis. Market value represented replacement costs of raw materials, supplies and spare parts and net realizable values of work in process and finished goods. As stated in Note 3, effective January 1, 2009, inventories are stated at the lower of cost or net realizable value. Inventory write-downs are made item by item, except where it may be appropriate to group similar or related items. Net realizable value is the estimated selling price of inventories less all estimated costs of completion and necessary selling costs. Inventory costs are determined using the weighted-average method.

Financial Assets Carried at Cost

Investments with no quoted market prices in an active market and with fair values that cannot be reliably measured, such as non-publicly traded stocks, are carried at their original costs. The costs of non-publicly traded stocks are determined using the weighted-average method. If there is objective evidence of financial asset impairment, a loss is recognized. A reversal of this impairment loss is not allowed.

Long-term Equity Investments

Investments in shares of stock of companies in which the Group owns at least 20% of their outstanding common stock or exercises significant influence over their operating and financial policy decisions are accounted for by the equity method.

The difference between the cost of the investment and the Group's equity in the investee's net assets when an investment is acquired or when the equity method is first adopted is amortized over five years. Effective January 1, 2006, under the revised Statement of Financial Accounting Standards, investment premiums, representing goodwill, are no longer being amortized. If the net fair value of an asset exceeds its investment cost, the difference will be credited to depend on the proportion of noncurrent asset's (not include non-equity-method financial asset, dispose asset waiting for sale, deferred tax asset and prepay pension cost or other pension pay) fair value. If the fair value of a noncurrent asset is not enough for crediting purposes, it will recognize as extraordinary gain. If the unamortized long-term investment by the equity method acquired before January 1, 2006 exceeds the Group's equity in the investee's equity in the investee's assets is a deferred liability will amortized depend on its remaining useful life.

If an investee issues additional shares and the Group acquires these shares at a percentage different from its current equity in the investee, the resulting increase in the Group's equity in its investee's net assets is credited to capital surplus. Any decrease in the Group's equity in the investee's net assets is debited to capital surplus. If capital surplus is not enough for debiting purposes, the difference is debited to unappropriated earnings.

For equity-method investees over which the Group has controlling influence, if the equity in losses recognized exceeds the original investment acquisition costs, the Group recognizes its subsidiary's total losses unless other investors commit to and have the ability to assume a portion of the losses. However, when the investees return to profitable operations, the profits should be recognized by the Group totally until its previously recognized losses are covered. If the equity in losses recognized exceeds the original investment acquisition costs plus any advance given to an equity-method investee, the excess losses should be recognized proportionately and is recorded as part of other liabilities.

All profits derived from sales of products by the Parent Company to its subsidiaries are deferred but only profit in proportion to the Group's equity interest is deferred for other equity-method investees that are not majority owned. Profit from the sales of products by equity-method investees to the Group is deferred in proportion to the Group's equity interests in the investees and credited against the investment. Profits from sales of products between equity-method investees are deferred to the extent of the Group's equity interests in these investees. The deferred profits are included as part of other liabilities. All of these profits are realized through the subsequent sale of the related products to third parties.

Stock dividends received are recorded only as an increase in the number of shares held but not recognized as investment income. Cost or carrying value per share is recomputed on the basis of total shares held after stock dividends are received.

For all stock investments, costs of investments sold are determined using the weighted-average method.

Properties and Properties Leased to Others

Properties and properties leased to others are stated at cost less accumulated depreciation. Major additions, renewals and betterments are capitalized, while maintenance and repairs are charged to current expense.

Depreciation is computed using the straight-line method over service lives initially estimated as follows (plus one year to represent estimated salvage value): buildings and equipment, 10 to 60 years; machinery and equipment, 2 to 8 years; furniture and fixtures 2 to 8 years; and miscellaneous equipment, 2 to 10 years. Properties and properties leased to others still being used by the Group beyond their initially estimated service lives are depreciated over their newly estimated service lives.

Upon sale or other disposal of properties and properties leased to others, the related cost and accumulated depreciation are removed from the accounts, and the resulting gain or loss is credited or charged to nonoperating income or expenses in the year of disposal.

Intangible Assets

Goodwill represents the excess of the consideration paid for acquisition over the fair value of identifiable net assets acquired. Goodwill was previously amortized using the straight-line method over the estimated life of five years. Effective January 1, 2006, based on the newly revised Statement of Financial Accounting Standards No. 25 - "Business Combinations - Accounting Treatment under the Purchase Method" (SFAS No. 25), goodwill is no longer amortized and is instead assessed for impairment at least annually. Superficies, which represent royalty payment for using land, are amortized over 50 years using the straight-line method.

Deferred Expenses

Deferred expenses, consisting of computer software costs and royalties, are amortized over 2 to 8 years using the straight-line method.

Asset Impairment

An impairment loss should be recognized if the carrying amount of properties and properties leased to others, intangible assets, deferred expenses and investments accounted for by the equity method exceeds, as of the balance sheet date, their recoverable amount, and this impairment loss should be charged to current income. An impairment loss recognized in prior years could be reversed if there is a subsequent recovery in the estimates used to determine recoverable amount since the last impairment loss was recognized. However, an impairment loss is reversed only to the extent that it does not increase the asset carrying amount that would have been determined had no impairment loss on the asset been recognized in prior years.

For the purpose of impairment testing, goodwill is allocated to each of the relevant cash-generating units ("CGU(s)") that are expected to benefit from the synergies of the acquisition. A CGU to which goodwill has been allocated is tested for impairment annually or whenever there is an indication that the CGU may be impaired. If the recoverable amount of the CGU becomes less than its carrying amount, the impairment is allocated to first reduce the carrying amount of the goodwill allocated to the CGU and then to the other assets of the CGU pro rata on the basis of the carrying amount of each asset in the CGU. A reversal of an impairment loss on goodwill is disallowed.

For long-term equity investments for which the Group has significant influence but with no control, the carrying amount (including goodwill) of each investment is compared with its own recoverable amount for the purpose of impairment testing.

Pension Costs

The Group has two types of pension plans: Defined benefit and defined contribution.

Under the defined benefit pension plan, net pension costs are recognized on the basis of actuarial calculations, and, under the defined contribution pension plan, on contribution basis throughout the employees' service period.

If the defined benefit pension plan is curtailed or settled, the resulting gains or losses should be recognized as part of the net pension cost for the period.

Except for the Parent Company, the subsidiaries all contribute to pension funds and recognize pension costs based on local government regulations.

Treasury Stock

Treasury stock is stated at cost and shown as a deduction in shareholders' equity.

Income Tax

The Group uses inter-period allocation to account for income tax. Deferred tax assets are recognized for the tax effects of deductible temporary differences, investment tax credits, and deferred tax liabilities are recognized for the tax effects of taxable temporary differences. Valuation allowance is provided for deferred income tax assets that are not certain to be realized. Deferred income tax assets or liabilities are classified as current or noncurrent according to the nature of related assets or liabilities for financial reporting. But, if a deferred asset or liability cannot be related to an asset or liability in the financial statements, it is classified as current or noncurrent depending on the expected realization date of the temporary difference.

Investment tax credits for certain equipment or technology purchases, research expenditure, employee and trainings are recognized in the current period.

Adjustments of prior years' tax liabilities are added to or deducted from the current period's tax expense.

Income taxes (10%) on undistributed earnings generated since January 1, 1998 are recorded as expense in the period when the shareholders resolve to retain the earnings.

Foreign-currency Transactions

The financial statements of foreign operations are translated into New Taiwan dollars at the following exchange rates:

- a. Assets and liabilities - at exchange rates prevailing on the balance sheet date;
- b. Shareholders' equity - at historical exchange rates;
- c. Dividends - at the exchange rate prevailing on the dividend declaration date; and
- d. Income and expenses - at average exchange rates for the year.

Exchange differences arising from the translation of the financial statements of foreign operations are recognized as a separate component of shareholders' equity. Such exchange differences are recognized in profit or loss in the year in which the foreign operations are disposed of.

Non-derivative foreign-currency transactions are recorded in New Taiwan dollars at the rates of exchange in effect when the transactions occur. Exchange differences arising from settlement of foreign-currency assets and liabilities are recognized in profit or loss.

At the balance sheet date, foreign-currency monetary assets and liabilities are revalued using prevailing exchange rates and the exchange differences are recognized in profit or loss.

If the functional currency of an equity-method investee is a foreign currency, translation adjustments will result from the translation of the investee's financial statements into the reporting currency of the Company. Such adjustments are accumulated and reported as a separate component of shareholders' equity.

At the balance sheet date, foreign-currency nonmonetary assets (such as equity instruments) and liabilities that are measured at fair value are revalued using prevailing exchange rates, with the exchange differences treated as follows:

- a. Recognized in shareholders' equity if the changes in fair value are recognized in shareholders' equity;
- b. Recognized in profit and loss if the changes in fair value is recognized in profit or loss.

Foreign-currency nonmonetary assets and liabilities that are carried at cost continue to be stated at exchange rates at trade dates.

Reclassifications

Certain accounts in the consolidated financial statements as of and for the three months ended March 31, 2008 have been reclassified to be consistent with the presentation of the consolidated financial statements as of and for the three months ended March 31, 2009.

3. EFFECTS OF CHANGES IN ACCOUNTING PRINCIPLES

a. Accounting for Inventories

Effective January 1, 2009, the Group adopted the newly revised Statement of Financial Accounting Standards No. 10 - "Inventories." The main revisions are (1) inventories are stated at the lower of cost or net realizable value, and inventories are written down to net realizable value item by item, except when the grouping of similar or related items is appropriate; (2) unallocated overheads are recognized as expenses in the period in which they are incurred; and (3) abnormal cost, write-downs of inventories and any reversal of write-downs are recorded as cost of sales for the period. This accounting change resulted in decreases of \$7,096 thousand and \$10,983 thousand in the Parent Company's net income and consolidated net income, respectively, and of NT\$0.01 in earnings per share (after income tax) for the three months ended March 31, 2009. The Group also reclassified the nonoperating loss of \$22,641 thousand in the three months ended March 31, 2008 to the cost of goods sold.

b. Accounting for Bonuses to Employees, Directors and Supervisors

The Accounting Research and Development Foundation of the R.O.C. issued Interpretation 2007-052 which requires companies to recognize as compensation expenses bonuses paid to employees, directors and supervisors beginning January 1, 2008. These bonuses were previously recorded as appropriations from earnings. The adoption of this interpretation resulted in decreases in net income and earnings per share (after income tax) of \$58,524 thousand and \$0.12, respectively, for the year ended March 31, 2008.

4. CASH

	<u>March 31</u>	
	<u>2009</u>	<u>2008</u>
Cash on hand	\$ 141,150	\$ 170,958
Checking and demand deposits	1,096,670	1,062,358
Time deposits: Interest - 0.10%-5.00% in 2009 and 1.40%-5.50% in 2008	<u>1,674,732</u>	<u>759,589</u>
	<u>\$ 2,912,552</u>	<u>\$ 1,992,905</u>

5. FINANCIAL INSTRUMENTS AT FAIR VALUE THROUGH PROFIT OR LOSS

The Parent Company's trading-purpose assets were as follows:

	<u>March 31</u>	
	<u>2009</u>	<u>2008</u>
<u>Financial assets resulting from trading</u>		
Forward contracts	<u>\$ 1,072</u>	<u>\$ 413</u>
<u>Financial liabilities resulting from trading</u>		
Forward contracts	<u>\$ 3,766</u>	<u>\$ 12,144</u>

The outstanding forward contracts as of March 31, 2009 and 2008 were as follows:

	Currency	Maturity	Amount (Thousands)
<u>March 31,2009</u>			
Sell	EUR/USD	From April to June 2009	EUR4,500/USD5,878
Sell	USD/NTD	April 2009	USD500/NTD17,591
<u>March 31,2008</u>			
Sell	USD/NTD	From April to July 2008	USD40,600/NTD1,220,859
Sell	EUR/USD	From April to May 2008	EUR5,000/USD7,862
Sell	YEN/USD	April 2008	JPY49,510/USD500

The Parent Company entered into forward contract transactions in the three months ended March 31, 2009 and 2008 to avoid risks on exchange rate fluctuations. The hedging strategy of the Parent Company is to avoid the major portion of the market and liquidity risks.

Net gains and loss arising from trading financial assets or liabilities for the three months ended March 31, 2009 and 2008 were gain \$9,416 thousand and loss \$10,981 thousand, respectively.

6. AVAILABLE-FOR-SALE FINANCIAL ASSETS

	<u>\$ 29,580</u>	<u>\$ 26,787</u>

12. SHORT-TERM BANK LOANS

	<u>Three Months Ended</u>	
	<u>March 31</u>	
	2009	2008
Materials purchase loans - interest 1.51%-3.02% in 2009 and 4.44%-6.00% in 2008	\$ 38,289	\$ 38,925
Secured loans - interest 2.25%-2.50% in 2009 and 4.44% in 2008	-	5,000
Credit loans - interest 2.15%-2.80% in 2009 and 3.33%-6.56% in 2008	<u>195,719</u>	<u>462,701</u>
	<u>\$ 234,008</u>	<u>\$ 506,626</u>

Advantech Technology (China) Company Ltd., an indirect subsidiary of the Parent Company, obtained a credit loan from a bank to meet its financing need. As of March 31, 2009 and 2008, the carrying values were \$135,719 thousand and \$347,071 thousand, respectively.

Netstar Technology Co., Ltd., an indirect subsidiary of the Parent Company, obtained credit, materials purchase and mortgage loans from bank to meet its financing need. As of March 31, 2009 and 2008, the carrying values were \$98,289 thousand and \$158,925 thousand, respectively.

13. LONG-TERM BANK LOANS

	Current	Long-term	Total
<u>March 31, 2009</u>			
Secured loans	<u>\$ 3,375</u>	<u>\$ 31,500</u>	<u>\$ 34,875</u>
<u>March 31, 2008</u>			
Credit loans	\$ 8,871	\$ 64,579	\$ 73,450
Secured loans	<u>4,500</u>	<u>34,875</u>	<u>39,375</u>
	<u>\$ 13,371</u>	<u>\$ 99,454</u>	<u>\$ 112,825</u>

Netstar Technology Co., Ltd., an indirect subsidiary of the Parent Company, obtained a mortgage loan from a bank for its operation need. This loan is repayable from October 2006 to October 2016 in 40 quarterly installments from January 2007. As of March 31, 2009 and 2008, the carrying value were \$34,875 thousand and \$39,375 thousand, respectively; the interest rates were 2.25%-2.50% and 3.25%, respectively.

14. SHAREHOLDERS' EQUITY

Capital Surplus

Based on certain laws or regulations, capital surplus from long-term equity investments accounted for by the equity method cannot be used for any purpose. Other capital surplus may be used only to offset a deficit. Capital surplus from the issue of stock in excess of par value may be capitalized by issuing new shares to shareholders in proportion to their holdings, and capitalized amounts should be within certain limits.

Appropriation of Earnings and Dividend Policy

The Parent Company's Articles of Incorporation provide that legal reserve should be set aside at 10% of annual net income less any cumulative losses. In addition, a special reserve should be appropriated as needed. The remainder of the income should be appropriated in the following order:

- a. 8% to 20% as bonus to employees;
- b. 1% or less as remuneration to directors and supervisors; and
- c. Dividends, as proposed by the board of directors.

For stock bonuses, employees may include subsidiaries' employees who meet certain criteria as determined by the Parent Company's board of directors;

Any appropriations of earnings are recorded in the year of shareholders' approval following the year of earnings generation.

The bonus to employees and remunerations to directors and supervisors of \$75,000 thousand (classified under accrued expenses) were accrued on the basis of past experience. If the actual amounts subsequently resolved by the shareholders differ from the proposed amounts, the differences are recorded in the year of shareholders' resolution as a change in accounting estimate. If bonus shares are resolved to be distributed to employees, the number of shares is determined by dividing the amount of bonus by the closing price (after considering the effect of cash and stock dividends) of the shares of the eve of the shareholders' meeting.

Based on a directive issued by the Securities and Futures Bureau, an amount equal to the net debit balance of certain shareholders' equity accounts (including unrealized gain or loss on financial instruments and cumulative transaction adjustments) should be transferred from unappropriated earnings to a special reserve. Any special reserve appropriated may be reversed to the extent of the decrease in the net debit balance.

Under the Company Law, legal reserve should be appropriated until the accumulated reserve equals the Parent Company's paid-in capital. This reserve may be used only to offset a deficit. When the balance of the reserve reaches 50% of the Parent Company's outstanding capital stock, up to 50% thereof may be transferred to capital.

Under the Integrated Income Tax System, which took effect on January 1, 1998, noncorporate local shareholders are allowed a tax credit for the income tax paid by the Parent Company on earnings generated since 1998. An imputation credit account (ICA) is maintained by the Parent Company for such income tax and the tax credit allocated to each shareholder. The maximum credit available for allocation to each shareholder cannot exceed the ICA balance on the dividend distribution date.

The Parent Company operates in an industry related to computers, and its business related to network servers is new but with significant potential for growth. Thus, in formulating its dividend policy, the Parent Company takes into account the overall business and industry conditions and trends, its objective of enhancing the shareholders' long-term interest, and the sustainability of the Parent Company's growth. The policy also requires that stock dividends be less than 75% of total dividends to retain internally generated cash within the Parent Company to finance future capital expenditures and working capital requirements.

The appropriations of earnings for 2008 and 2007 were proposed in the Board of Directors' meeting and approved in the shareholders' meeting held on March 27, 2009 and June 12, 2008, respectively. The appropriations and dividends per share were as follows:

	<u>Appropriation of Earnings</u>		<u>Dividends Per Share (Dollars)</u>	
	<u>2008</u>	<u>2007</u>	<u>2008</u>	<u>2007</u>
Legal reserve	\$ 254,355	\$ 294,989	\$ -	\$ -
Special reserve	1,135,596	-	-	-
Cash dividends	1,490,598	1,869,508	3.00	4.00
Stock dividends	24,843	233,688	0.05	0.5
Remuneration to directors and supervisors	-	26,549	-	-
Bonus to employees - stock	-	60,000	-	-
Bonus to employees - cash	-	205,490	-	-

At their meeting on March 27, 2009, the members of board of directors proposed to distribute bonus to employees amounting to \$190,000 thousand for 2008.

At their meeting on June 12, 2008, the shareholders approved the board of directors' proposal to distribute stock dividends of \$233,688 thousand and stock bonus to employees amounting to \$60,000 thousand. The appropriation of earnings for 2007 were approved by the Financial Supervisory Commission under the Executive Yuan of the ROC. The board of directors resolved August 8, 2008 as the date of distributing stock and cash dividends, and the Parent Company had completed its revised registration from the MOEA.

Information on the appropriation of earnings, bonus to employees and remuneration to directors and supervisors can be accessed online through the Market Observation Post System on the Web site of the Taiwan Stock Exchange.

On April 1, 2003, the Securities and Futures Bureau approved the Parent Company's stock option plan. There were 3,000 thousand units authorized to be issued, which may be converted to 3,000 thousand common shares. Employees may exercise a certain percentage of the option within two and four years of the grant date, and will expire six years from the grant date. The stock options were issued on August 14, 2003, and the exercise price was set at NT\$23.49 as of March 31, 2009.

As of March 31, 2009, there were 2,495 thousand units of stock options exercised, which were converted to 2,495 thousand common shares; thus, the unexercised stock options consisted of 145 thousand units.

When the grant date of stock-based employee compensation plans is on or before January 1, 2004, the Parent Company need not apply the accounting guideline Nos. 070, 071 and 072 for stock-based compensation issued by the Accounting Research and Development Foundation of the ROC.

15. TREASURY STOCK

(Shares in Thousands)

Purpose of Treasury Stock	Number of Shares, Beginning of Period	Addition During the Period	Reduction During the Period	Number of Shares, End of Period
<u>Three months ended March 31, 2009</u>				
For transfer to employees	<u>14,500</u>	-	-	<u>14,500</u>
<u>Three months ended March 31, 2008</u>				
For transfer to employees	<u>14,500</u>	-	-	<u>14,500</u>
To maintain the Company's credibility and shareholders' interest	-	<u>10,000</u>	-	<u>10,000</u>

Under the Securities and Exchange Act, the Parent Company shall neither pledge treasury stock nor exercise shareholders' rights on these shares, such as rights to dividends and to vote.

16. EARNINGS PER SHARE

The numerators and denominators used in calculating earnings per share (EPS) were as follows:

	<u>Amount (Numerator)</u>		<u>Shares</u> <u>(Denominator)</u>	<u>Earnings Per Share</u>	
	Pretax	After-tax	(Thousands)	Pretax	After-tax
<u>Three months ended March 31, 2009</u>					
Basic EPS	\$ 435,740	\$ 376,027	496,859	<u>\$ 0.88</u>	<u>\$ 0.76</u>
Impact of dilutive potential common stock					
Employees' stock options	-	-	68		
Bonuses to employees	-	-	<u>6,062</u>		
Diluted EPS	<u>\$ 435,740</u>	<u>\$ 376,027</u>	<u>502,989</u>	<u>\$ 0.87</u>	<u>\$ 0.75</u>

(Continued)

	<u>Amount (Numerator)</u>		<u>Shares</u>	<u>Earnings Per Share</u>	
	<u>Pretax</u>	<u>After-tax</u>	<u>(Denominator)</u> <u>(Thousands)</u>	<u>Pretax</u>	<u>After-tax</u>
<u>Three months ended March 31, 2008</u>					
Basic EPS	\$ 713,723	\$ 631,077	503,873	\$ <u>1.42</u>	\$ <u>1.25</u>
Impact of dilutive potential common stock					
Employees' stock options	-	-	272		
Bonuses to employees	-	-	2,139		
Diluted EPS	\$ <u>713,723</u>	\$ <u>631,077</u>	<u>506,284</u>	\$ <u>1.41</u>	\$ <u>1.25</u>

(Concluded)

The EPS was retroactively adjusted for the stock dividends declared. Thus, in the three months ended March 31, 2008, pretax and after-tax basic EPS decreased from NT\$1.50 to NT\$1.42 and from NT\$1.33 to NT\$1.25, respectively, and pretax and after-tax diluted EPS decreased from NT\$1.50 to NT\$1.41 and from NT\$1.33 to NT\$1.25, respectively.

	<u>\$ 342</u>	<u>100</u>	<u>\$ 1,264</u>	<u>100</u>

6) Financing to related parties:

Financing to related parties was as follows:

	<u>Three Months Ended March 31, 2009</u>			
Related Party	Maximum Balance	Ending Balance	Interest Rate	Interest Revenue
AKR	<u>\$ 13,703</u>	<u>\$ 13,703</u>	5%	<u>\$ 54</u>

Product sales were conducted under normal terms. The payment terms for related parties were 30 to 90 days. Terms for third parties were 30 to 60 days.

18. ASSETS PLEDGED OR MORTGAGED

- a. As of March 31, 2009 and 2008, the subsidiary - Netstar Technology Co., Ltd. offered assets for certificates of short-term and long-term bank loans as follows:

	<u>March 31</u>	
	<u>2009</u>	<u>2008</u>
Restricted current assets (time deposits)	\$ -	\$ 34,938
Properties - land	35,506	40,336
Properties - buildings - cost	<u>22,417</u>	<u>27,123</u>
	<u>\$ 57,923</u>	<u>\$ 102,397</u>

- b. The subsidiary - Advansus Corp.'s certificates of deposits that had been pledged or mortgaged as collaterals for tariff amounted to \$100,000 thousand in the three months ended March 31, 2009 and 2008, the Parent Company consolidated in the proportionate consolidated method.

19. SIGNIFICANT COMMITMENTS AND CONTINGENCIES

- a. As of March 31, 2009, the Parent Company had the following guarantees for affiliates' loans:

	Amount
AKMC	<u>US\$ 18,600 thousand</u>
Netstar	<u>\$ 220,000 thousand</u>
Advansus Corp.	<u>\$ 100,000 thousand</u>

- b. As of March 31, 2009 and 2008, the unused amount of the L/C for purchasing, which was opened by Netstar Technology Co., Ltd., an indirect subsidiary of the Parent Company, was \$3,239 thousand and \$360 thousand, respectively.
- c. As of March 31, 2009 and 2008, the guarantee notes issued by Netstar Technology Co., Ltd. for the bank loan amounted to \$119,875 thousand and \$265,875 thousand, respectively.

20. FINANCIAL INSTRUMENTS

- a. Fair values of financial instruments were as follows:

	March 31			
	<u>2009</u>		<u>2008</u>	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
<u>Nonderivative financial instruments</u>				
<u>Assets</u>				
Available-for-sale financial assets - current	\$ 12,763	\$ 12,763	\$ 1,410,050	\$ 1,410,050
Available-for-sale financial assets - noncurrent	1,692,944	1,692,944	3,698,427	3,698,427
<u>Liabilities</u>				
Long-term bank loans (including current portion)	34,875	34,875	112,825	112,825
<u>Derivative financial instruments location</u>				
Financial assets at fair value through profit or loss - current				
Domestic	-	-	1	1
Foreign (foreign corporation operating in domestic district included)	1,072	1,072	412	412
Financial liabilities at fair value through profit or loss - current				
Domestic	2,224	2,224	3,728	3,728
Foreign (foreign corporation operating in domestic district included)	1,542	1,542	8,416	8,416

- b. Methods and assumptions used in the determination of fair values of financial instruments
- 1) For financial instruments such as cash, notes and accounts receivables, receivables from related parties, other receivables, restricted assets-current, short-term bank loans, accounts payable and refundable deposits, the carrying amounts of these financial instruments approximate their fair values.
 - 2) Fair values of available-for-sale financial assets were based on their quoted market price.
 - 3) The fair value of the long-term bank loans (including current portion) is determined using the present value based of the projected cash flows discounted at interest rates for similar long-term debts.
 - 4) Fair values of derivatives were determined using the quoted market prices, using valuation techniques incorporating estimates and assumptions that are consistent with those prevailing in the market.
- c. The fair values of financial assets and liabilities were based on the quoted market prices or determined using certain valuation techniques, as follows:

<u>Asset</u>	<u>Based on the Quoted</u>		<u>Determined Using</u>	
	<u>Market Price</u>		<u>Valuation Techniques</u>	
	<u>March 31</u>		<u>March 31</u>	
	<u>2009</u>	<u>2008</u>	<u>2009</u>	<u>2008</u>
Financial assets at fair value through profit or loss - current	\$ -	\$ -	\$ 1,072	\$ 413
Available-for-sale financial assets - current	12,763	1,410,050	-	-
Available-for-sale financial assets - noncurrent	1,692,944	3,698,427	-	-
<u>Liabilities</u>				
Financial liabilities at fair value through profit or loss - current	-	-	3,766	12,144

- d. As of March 31, 2009 and 2008, financial assets exposed to fair value risk from interest rate fluctuation amounted to \$1,724,732 thousand and \$844,527 thousand, respectively. As of March 31, 2009 and 2008, financial liabilities exposed to fair value risk from interest rate fluctuation amounted to \$268,883 thousand and \$619,451 thousand, respectively. As of March 31, 2009 and 2008, financial assets exposed to cash flow interest rate risk amounted to \$1,037,061 thousand and \$1,024,304 thousand, respectively.
- e. The Parent Company recognized unrealized losses of \$38,671 thousand and of \$349,059 thousand in shareholders' equity for the changes in fair value of available-for-sale financial assets for the three months ended March 31, 2009 and 2008, respectively. The Parent Company also recognized unrealized losses of \$36 thousand and gains of \$3,007 thousand in shareholders' equity for the changes in available-for-sale financial assets held by equity-method investees for the three months ended March 31, 2009 and 2008, respectively.

f. Financial risks

- 1) Market risk. The derivative financial instruments categorized as financial assets at fair value through profit or loss are mainly used to hedge exchange rate fluctuations of foreign currency-denominated assets and liabilities. Thus, the market risk of derivatives will be offset by the gain or loss on the exchange rate fluctuations of hedged assets and liabilities. Available-for-sale financial assets held by the Group are mainly mutual funds and publicly traded stocks. Thus, price fluctuations in the open market would result in changes in fair values of these financial instruments.
- 2) Credit risk. Credit risk represents the potential loss that would be incurred by the Group if the counter-parties breach the contracts. Contracts with positive fair values on the balance sheet date are evaluated for credit risk. Since the counter-parties to the foregoing derivative financial instruments are reputable financial institutions, management believes its exposure to default by counter-parties is low.
- 3) Liquidity risk. The Group has sufficient operating capital to meet cash needs upon settlements of derivative financial instruments. Therefore, the cash flow risk is low. In addition, for long-term equity-method investments (mutual funds and publicly traded stocks), the Group keeps liquidity reserves, which are available on a short-term basis. Additionally, the contracted forward rate is decided on the contract starting dates. Thus, the cash flow risk on forward contracts is low.

21. ADDITIONAL DISCLOSURES

- a. Except for those mentioned in Note 17 and Tables 1 to 7, no additional disclosures are required by the Securities and Futures Bureau for the Parent Company and its investees and on investment in Mainland China.
- b. Investments in mainland China
 - 1) Investee company name, main business and products, total amount of paid-in capital, investment type, investment flows, percentage ownership of direct or indirect investment, investment gains (losses), carrying value as of March 31, 2009, accumulated inward remittance of earnings as of March 31, 2009 and upper limit on investment: Please see Table 8 attached.
 - 2) Significant transaction with overseas subsidiary with direct or indirect investment in China: Notes 17, 19 and Tables 1, 2, 5 and 6.
- c. Intercompany relationships and significant intercompany transactions: Please see Table 10 attached.
